

Bisyri Syamsuri

Backend developer for hire

Professional and focused on one thing and using objectivity in reading targets is my identity and image as an IT student. For more than three years I have been in technology, with various web and software and games that I have worked on or developed. I was also able to improve several skills that can support me in pursuing a career in this technology field. And the several awards that I have achieved also prove that I like new things to add new insights and experiences.
